

Great news!

The Department of Epidemiology and Biostatistics is proud to announce a **5-year BS/MS program in Biostatistics**. Enrollment deadline for Fall 2014 is **March 1, 2014**. Some exception may be made.

About the Program. This Integrated BS/MS (Bachelor of Science and Master of Science) Program with the MS in Biostatistics is intended as an honors graduate program for highly motivated and qualified BS students who wish to pursue an advanced degree. Students admitted to the Program may, in their junior and/or senior year, take up to nine credit hours of graduate courses that will count toward both BS and MS requirements.

The advantages to our BS students applying for the BS/MS Program over the standard MS program are:

- No application fee is required
- The GRE exam is not required
- 2 admission periods, in Fall and Spring
- A personalized BS/MS program tailored to admission status
- 9 credits less than doing the programs consecutively, and they pay the lower undergraduate tuition for the MS program

Eligibility. Majors eligible as listed in

<http://www.case.edu/ugstudies/programs/2YIBSMS.ppt>

Include Applied Mathematics or Statistics Majors and those from all engineering departments, with a minimal GPA of 3.0.

Applications to the Program must be made after the completion of 75 credit hours of coursework and prior to attaining senior status (completion of 90 credit hours).

Deadline. In concordance with IGS, the application deadline for spring semester enrollment is **November 1st, 2013**. For enrollment in Fall 2014, the application deadline is **March 1st, 2014**.

How to Apply. Please check <http://sr2c.case.edu/BSMS.pdf> step-by-step application instruction.

Required Documents.

- 1) The application form (Electronic Submission)
- 2) A Statement of Objectives (Electronic Submission)
- 3) Three letters of recommendation (Electronic Submission)
- 4) Unofficial Transcript (Manual Submission)
- 5) An approved Program of Study (Manual Submission)
 - *Must be developed in consultation with a BS/MS Program Advisor

Questions? Please contact any of the Biostatistics BS/MS Program Admission Advisors:

- Professor Abdus Sattar, PhD (sattar@case.edu)
- Professor Pingfu Fu, PhD (pxf16@case.edu)
- Professor Jiayang Sun, PhD (jsun@cas.edu), Program Director

Please Note. A student may change his/her BS/MS advisor upon or after admission.
